REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

No prior art has been found to meet the limitations of claims 1-44 calling for a method of producing three dimensional image data. The method includes use of a series of RF pulses, gradient field pulses, and time delays to encode a desired contrast property in the form of longitudinal magnetization. Acquiring data in a time period including at least two repetitions of a gradient echo sequence to obtain data from a fraction of a k-space. Provision is made for a recovery period in which T1 (longitudinal relaxation time) and T2 (spin-spin relaxation time) can occur prior to starting a next sequence cycle. These steps are repeated until a predetermined k-space volume is sampled.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labelled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Tokar whose telephone number is (703) 305-4932.
